

FC Feed Process Verified Program

Program Name:

FC Feed Process Verified Program

Program Requirements – “Process Points”:

Provide customers with fresh high quality feed that is properly manufactured to meet feed order specifications.

1. All feed is manufactured within the FC system.
2. All feed is delivered by qualified FC bulk feed truck drivers.
3. Selected feed ingredients must fall into specified quality parameters.
4. “Top Grind” corn must fall into a specified micron size range.
5. Feed Safety Based Control System - HACCP.
